#RKL-ASK Askew Head Bolt

Quantity of Wedge Inserts: _____ pcs
 Quantity of Askew Head Bolts: _____ pcs
 Quantity of Nuts/Washers: _____ pcs

Description: Askew Head Bolts are used with Wedge Inserts when embedded into concrete slabs. Produce an automatic tightening action when fastening materials to a concrete structure. Available in Plain or Hot Dipped Galvanized. Bolts come with a nut and washer. Bolts extend 1/4" less than above lengths when installed in inserts. The Long Wedge Insert allows for additional vertical adjustability.

Size of Wedge Insert: Accommodates 3/4" askew head bolts.
